

This document sets out the Authority's 2020 Registry Fees for Tires, Batteries and Electrical and Electronic Equipment (EEE).

The 2020 Registry Fees are the charges producers obligated under the Tires Regulation, Batteries Regulation and EEE Regulation issued under the [Resource Recovery and Circular Economy Act, 2016 \(RRCEA\)](#) are required to pay to the Resource Productivity and Recovery Authority for 2020 in order to support the Authority's operations.

The 2020 Registry Fees for Tires, Batteries and EEE have been set on the following basis:

- The \$7500 Producer Responsibility Organization (PRO) fee has been eliminated
- Service providers will continue to not pay fees
- Small tire producers will continue to pay a flat fee of \$75
- The variable fee for tire producers has been reduced by 2.5 ¢/tire supplied from 2019, which includes a prior year credit of 2 ¢/tire
- There will be no fee for producers who are required to report supply of 6500 kg or less of EEE or producers who are required to report supply of 1000 kg or less of batteries
- The Batteries and EEE variable fee for producers has been set as a blended variable charge to reflect that Batteries and EEE producers are interrelated, many EEE products are sold with batteries, and the Batteries and EEE regulations are interrelated.

2020 Registry Fees for Tires, Batteries and EEE

Material Group	Registrant	Fee
Tires	Producer: 0-999 tires supplied*	\$75 Flat Fee
	Producer: 1,000+ tires supplied*	\$0.115 (11.5¢) per tire supplied
	Producer Responsibility Organization	No Fee
Batteries and EEE	Producer: <ul style="list-style-type: none"> • 6500 kg or less of EEE supplied** • 1000 kg or less of batteries supplied** 	No Fee
	Producer: <ul style="list-style-type: none"> • More than 6500 kg of EEE or 1000 kg or more batteries supplied** 	\$0.034 (3.4¢) per kg supplied
	Producer Responsibility Organization	No Fee

*The number of tires supplied is based on a rolling average of three years (2016-2018 for 2020 fees) of data required to be submitted by tire producers under the Tires Regulation.

** The kg supplied for EEE is based on the 2018 supply data required to be submitted by producers under the Electrical and Electronic Equipment Regulation, net of the number of kg that the producer is permitted to count toward a reduction in the management requirement under the regulation. The kg supplied for batteries is based on an average of 2018 and 2019 supply data required to be submitted by single-use battery producers and 2018 supply data required to be submitted by rechargeable battery producers under the Batteries Regulation, net of the number of kg that the producer is permitted to count toward a reduction in the management requirement under the regulation.

Fee payment timeline

When producers register on the Registry, fees will be automatically calculated. Fees are due at the time of invoice.

Other charges and fees

The Authority will levy a number of other charges such as:

- Credit card charges to recover the costs charged by the credit card company at a rate of 1.5%
- A monthly 1.5% late payment fee as a percentage of the fee value
- Ministry of the Environment, Conservation and Parks costs associated with Environmental Review Tribunal hearings resulting from the appeal of compliance orders and administrative penalty orders from affected parties
- Prosecution costs directly from affected parties

Review timeline

The Authority seeks to find the right balance between the frequency of fee adjustments to ensure the Authority's financial sustainability while providing reasonable predictability for regulated parties. Fees will be reviewed again in 2021 to ensure they reflect the information available at that time.
